

Lab 7: Picture Filter.

1. Use this link to get the GitHub repo: <https://classroom.github.com/a/U9RuFFBf>
2. Update the README with your name.
3. The lab is in the repo already. Open the lab7 directory with android studio.
4. You are going to draw 2 new features.
 - a. Note, there is already a duck drawn on the below the left ear, the points of the right eye and box sort of around the mouth. This doesn't count. You can, however, remove them.
 - b. Suggestions (not required), add glasses, add a hat. Draw a clown nose (ie a red big-ish circle on the nose). But the features are completely up to you.
5. Take selfie or your neighbor or a celebrity, showing the 2 new features. Take a screenshot and add that to the repo.

Turn in:

1. Make sure the readme has been updated with your name.
2. Update the AI use section
3. Include the screenshots show the app works.
4. Make sur the app and everything has been pushed to GitHub.
